February Thunder and Lightning.
February snatched a leaf from August's book and sprung a thunderstorm as introductory to its advent in this section. At 12:30 Thursday morning a brilliant flash of lightning was followed by an amazingly heavy roll of thunder and rain fell in torrents.

Too Many Organizations.
Milk producers are in many cases, becoming discouraged over the lack of results that have followed this winter's attempts to organize them into a body formidable enough to safeguard their interests in New England. It seems to be another case of too many cooks spoiling the broth, for there are too many organizations in this line.

Shipments Delayed.
Congestion on railroad lines is hampering the operations of at least one big manufacturing concern doing business in this town, by reason of the fact that shipments of materials are greatly delayed, and this at a time when the plant is rushed with orders.
With the coming of February all motor vehicles in operation here are equipped with the new license numbers, although some owners who have their cars out of service are still without the registration plates.

Savings deposits in Danielson's banks showed a substantial gain during January, was stated Thursday, keeping up the fine record that was made during 1916.

He learned Thursday that the company has sent for electrical engineers to come to Plainfield to examine and determine if possible the exact cause of the accident, believed now to have been due to a short circuiting of wires.

Theodore Buckwheat found himself a prisoner and before the town court here Thursday afternoon, charged with having been intoxicated. Judge Woodward sentenced him to serve five days and pay the costs of prosecution.

Scouts After Waste Paper.
Boy Scouts here are anxiously awaiting calls for their services in taking work on their campaign to secure enough money to pay their expenses to the Scout convention to be held at Hartford and willingly give their labor in exchange for old books, papers, etc.

Jitney to Ballouville Favored.
A suggestion has come from villages in the northern section of Killingly that the establishment of a jitney bus line between Ballouville and Attawapung and Danielson would be appreciated by many people in that section, and that such a line would bring additional trade into Danielson.

Mrs. Sheldon was the daughter of Mr. and Mrs. James Goldman of Woodstock. Her father came to this section with Judson Sanger from Australia and married Mr. Sanger's daughter, Almira J. Sanger.

Most of her life Mrs. Sheldon had been a resident of Woodstock, but she had lived in Danielson, where her husband was engaged in business for a time and came to this city to reside on South Main street, about a year ago.

She leaves two children, Miss Gladys of this city and Raymond of Boston. Mrs. Henry Wells of Woodstock is a sister of Mrs. Sheldon's.

MIND THE WHISTLE!
If Out After Midnight, an Officer May Signal You to Halt.

If you happen to be out after midnight hereafter and hear the shrill rattle of a whistle, that's your order to stop and await an inspection by the police officer who has fixed his eagle eye upon you. And it doesn't matter whether you're a foot or on horseback, riding in a carriage or kit-train, or in a motor car, a whistle means that you must halt for inspection—or you may be sunk without warning.

This leads up to the fact that Captain Joseph Ryan issued orders to his men Thursday that persons out after midnight must be accosted by the officers, who will make inquiry as to reasons why such persons are out in the dead hours of the night.

Burglaries and other happenings have made it seem inadvisable for the police to know why persons are out after the midnight hour. In any event the new order can do no harm, and one and may result in a whole lot of good.

There is nothing of the curfew law about the new order. It isn't restrictive in any degree. A man may be out of his home. But the officers, in the interest of the safety of the city and its property, have a right to know something about his wanderings about town after midnight, and so the order is issued. It is not intended to inconvenience or to unnecessarily pry into his business.

Whistles were issued to the officers Thursday and the order is now in force.

HOME CREDITS PLAN
Being Tried in Nearby Schools With Good Results.

Special interest is developing here in a plan that has been successfully adopted in the town of Plymouth, Mass., and followed in the towns of Thompson and Woodstock by Supervisor F. W. Barber of giving credits to school children for duties performed at their homes.

Girls gain credits for helping mother wash the dishes, for close attention to their household duties or even for faithfully practicing lessons. The credits are given them by their school authorities on the word of their parents as to duties well and cheerfully done.

It has been found that this system of giving credits for assisting in domestic duties has been a manly boon to additional effort much to the benefit of the child and others concerned.

Applied in a limited degree in the neighboring towns, it has proved successful, and is attracting attention of persons interested in schools here.

St. Philip's Church Notes.
The meeting of the Women's Auxiliary that was to have been held Thursday afternoon with Mrs. C. J. Meehan was postponed until next week, on account of bad weather.

Today, in observance of the Feast of the Purification, there are to be special services. The communion service will be at 8 o'clock, evening prayer at 7:30, choir rehearsal at 8 o'clock.

Sunday, being the first Sunday of the month, there will be a service of holy communion at the 10:45 service as well as at 8 a. m. Sunday school is to be at noon and the evening service at 7 o'clock.

New Fire Truck Laid.
It was stated Thursday by a member of the common council that the new fire truck, for which the city recently made an appropriation of \$1,500, probably will not be added to the equipment of the department for two or three months. It is expected that a special committee on purchase of the truck will be named. This committee will investigate different makes, received bids and go through the regular routine required in handling such work for the city. Therefore considerable time must elapse before a truck is selected, purchased and received.

Not Like Real Money.

Everything'll Be Known.

Rockville.—At the next session of the common council, which will be held next Tuesday evening, the public works committee, to which was referred the petition of the city laborers for an increase in wages, will not recommend the granting of the petition. The committee has decided to recommend to pay the employees 25 cents an hour, nine hours a day and no half holiday Saturday.
